

Pharmaceutical Product Classification

General Sales List **GSL**

A product which can be sold 'over the counter' to members of the General Public. Packages must remain unopened. The premises from which they are sold must have the possibility to be closed to the public.

Pharmacy **P**

A product which can NOT be sold 'over the counter' to members of the General Public without a Pharmacy License. However the product may be used by a professional practitioner on their patients during the course of providing treatment.

Prescription Only Medicine **POM**

A product which can only be sold to professional practitioners with a Prescribing License. The product should not be issued to patients without a prescription.

Each of the above must have a Product License issued in the EC.

Pharmaceutical Supply

Pharmaceutical Products which are classified as **P** and **POM** can only be sold on the instructions of a registered podiatrist quoting their Health Professions Council (HPC) registration number. Certain classes of pharmaceutical products are subject to restrictions

Returns

Return of pharmaceuticals will only be accepted if there is
 A: an error in delivery
 B: the product is damaged in transit
 C: in response to a batch recall
